We have audited the accompanying statement of financial condition of Balance Sheet Solutions, LLC, as of December 31, 2012 and the related notes to the statement of financial condition.

Management's Responsibility for the Statement of Financial Condition

Management is responsible for the preparation and fair presentation of the statement of financial condition in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the statement of financial condition that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on this statement of financial condition based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the statement of financial condition. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the statement of financial condition, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the statement of financial condition in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

BALANCE SHEET SOLUTIONS, LLC
NOTES TO THE STATEMENT OF FINANCIAL CONDITION
AS OF DECEMBER 31, 2012

***NOTE 1: SIGNIFICANT ACCOUNTING
POLICIES***

NATURE OF BUSINESS

Balance Sheet Solutions, LLC (the Company) was formed on October 10, 2002, as an Illinois limited liability company. The Company is an investment advisory registered with the Securities and Exchange Commission (SEC). The Company is a wholly owned subsidiary of Alloya Corporate Federal Credit Union (Alloya). The Company offers securities transactions through an alliance with CU Investment Solutions (ISI), a member of Financial Industry Regulation Authority (FINRA) and Securities Investor Protection Corporation (SIPC), and nondiscretionary investment advisory services to its customers, principally credit unions. The Company also solicits time deposits for financial institutions through the SimpliCD program. In addition, the Company provides ALM Risk Modeling and auxiliary services to credit unions.

The Company was a FINRA registered broker dealer until its withdrawal on December 20, 2012. Simultaneously, the Company formed an alliance with ISI to begin selling securities with the Company's staff now registered through ISI. The Company utilized Alaska USA Trust Company (the Trust Company) to settle its securities transactions with other clearing brokers. The Trust Company was the custodian for the securities owned by the Company and also maintained segregated accounts on behalf of the Company's customers in 2012. The Company operates a main office in Illinois, with two service branches in New York and California.

The Company operated under the provisions of Paragraph (k)(2)(i) of Rule 15c3-3 of the SEC and, accordingly, was exempt from the remaining provisions of that Rule. Essentially, the requirements of Paragraph (k)(2)(i) provide that the Company clear all transactions on behalf of customers on a fully disclosed basis with a broker dealer. The clearing broker dealer carries all of the accounts of the customers and maintains and preserves all related books and records as are customarily kept by a clearing broker dealer. The broker dealer accounts that moved to ISI are handled by their operations and designated clearing agents.

USE OF ESTIMATES

The preparation of the financial statement in conformity with accounting principles generally accepted in the United States of America (GAAP/USA) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement. Actual results could differ from those estimates.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents include amounts due from Alloya and the Trust Company which may, at times, exceed federally insured limits.

Note 1: (continued)

PROPERTY AND EQUIPMENT

Property and equipment are carried at cost less accumulated depreciation. Furniture and equipment are depreciated using the straight-line method over the estimated useful lives of the assets. The cost of leasehold improvements is amortized using the straight-line method over the term of the lease, or the estimated life of the asset, whichever is less. The Company reviews property and equipment (long-lived assets) for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

PAYABLE TO PARENT COMPANY

The Company operates under a Master Services Agreement with Alloya. The payable to the parent company represents corporate support service expenses due to Alloya. (See Note 4)

ACCRUED EXPENSES AND OTHER LIABILITIES

Accrued expenses and other liabilities are mainly comprised of funds due to employees for compensation and benefits and certain other accrued expenses.

INCOME TAXES

As a single-member limited liability company (LLC), the Company is a flow-through entity, which provides that the LLC passes on all income and expenses to its parent company to be taxed at the parent company level. Alloya is a federally chartered credit union regulated by the National Credit Union Administration, with no tax liability under state or federal laws for itself and all subsidiaries, including the Company.

Accounting principles generally accepted in the United States of America require Company management to evaluate tax positions taken by the Company and recognize a tax liability (or asset) if the Company has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Management has analyzed the tax positions taken by the Company, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statement. The Company is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

SUBSEQUENT EVENTS

Management has evaluated subsequent events through April 11, 2013, the date the financial statement was available to be issued. Management has not identified any items requiring recognition or disclosure.
